

Audience Test

Tasks

1. Test the sign in page
2. Test the different pages
3. Test the top form and submit a question or the desire for an affirmation
4. Test the report button
5. Test the reply buttons (not completely finished coding, but general actions)

Evaluation Questions

1. Do you think that the general functionality is intuitive and straightforward?
2. What other features do you wish there were? Are there too many features?
3. Do you think the layout works? Are the sections or text too big or too small?
4. Are the icons understandable for each of the pages? If they should be changed, what should they be changed to?
